

## SUWCC Main Ground Covid 19 Policy 2021

We at Shipton look forward to welcoming you. Obviously some things will be different, so I thought it would be helpful to clarify what we are doing to keep everyone safe.

People should not attend if they are experiencing Covid 19 symptoms.

All changing rooms and the main pavilion will be closed. There is a gazebo for your team to use as a base. Toilets will be available via external doors in the pavilion building. People are requested to sanitise their hand before and after using the toilets.

There will be restricted access to the tea room (2 people at a time, to fill water bottles) and the scoreboard (1 person at a time). There will be a gazebo available next to the scoreboard as shelter for your scorer.

No food or drink will be provided for participants during play, so people should bring their own. Please use the recycling and general waste bins provided.

Everyone is encouraged to bring their own hand sanitiser and chair if they can. Hand sanitiser and wipes will be available.

No spectators are permitted unless they are using the hospitality in the area provided. Remember to check in on arrival and take a seat. Groups of up to 6 people or 2 households. You must remain seated at all times.

When the bar is open, bottles and cans will be served outside for consumption outside. Disposable glasses will be available on request. All payments to be by card only (no cash).

The main ground boundary will be shortened on the pavilion side to allow more space for players and spectators.

Everyone who is not going to appear in a scorebook needs to register on arrival using the NHS QR Code. There are registration points around the ground. Please ask a Shipton member if help is required.

Looking forward to a good game.
